

Bruno Baccari

AI QA Specialist | AI-Assisted Test Automation

Limeira, São Paulo, Brasil | [linkedin.com/in/baccari](https://www.linkedin.com/in/baccari)

Professional Summary

QA specialist working since 2021 across enterprise applications, fintech and conversational AI. Experience in automation, APIs and business rule testing, including Product Owner responsibilities. Uses AI in quality work, from GPT-3 to ChatGPT, Cursor, Codex and Antigravity, and creates reusable skills for AI agents.

Technical Skills

AI quality assurance: conversational AI testing, context retention and response consistency; AI-assisted test automation; Codex; Antigravity; reusable quality skills.

Automation: Python, Playwright, Cypress, Robot Framework, Selenium and Appium. End-to-end, mobile, REST API, contract, integration, regression and performance testing.

Quality engineering: risk-based test strategy, requirements analysis, CI/CD, Microsoft Azure, Azure DevOps, SQL and Scrum.

Professional Experience

Mouts TI | QA Engineer

May 2026 - Present | Remote | Ambev (AB InBev) project

- Validate Pricing calculations, integrations and business rules related to Brazil's tax reform in a Microsoft Azure environment.
- Develop and maintain end-to-end tests with Cypress, alongside functional and integration testing.
- Use Codex and Antigravity for QA automation and create quality skills to guide AI agents through testing activities.

Blis AI | AI QA Engineer

Feb 2026 - May 2026 | Remote

- Validated conversational AI for travel: conversation flows, context retention, AI behavior and response consistency across WhatsApp and web.
- Tested API integrations with travel agency and airline systems for hotel bookings, seat selection and flight ticket reissuance.
- Worked on test automation, performance testing and CI/CD pipelines; used Codex, Antigravity and quality skills.

MB Labs | QA Engineer

Apr 2023 - Mar 2026 | Remote

- Split responsibilities equally between Product Owner (50%) and QA (50%) for fintech and banking products, covering automation, performance testing and continuous integration.
- Used ChatGPT and began adopting Cursor and Antigravity in software work during this role.

BRK Ambiental | Quality Assurance

Jul 2021 - Feb 2023 | Temporary through Sep 2021; outsourced from Oct 2021

- Performed functional, regression and integration testing; automated tests with Robot Framework and used GPT-3 to support test creation.
- Managed defects, validated fixes and presented test results in Scrum teams, using Azure DevOps and Oracle SQL Developer.

Education

Bachelor's degree in Computer Science | Universidade Paulista | Jan 2020 - Jan 2024

Courses and Certificates

Tricentis Tosca Test Automation - The Complete Masterclass | Udemy | 2026

Ninja do Cypress | Keep Testing School | 2026

Testes contínuos em Robot Framework no Github Actions | Keep Testing School | 2024
